

LykkeTimes

#11/2016

Dear Lykke friends,

Summer is the time for fun and leisure, but also an inspiration for new ideas and projects. Here are some of our fresh sprouts and ripening fruits.

LykkeX beta status update

Lykke Wallet and Lykke Exchange beta are live for a month now.

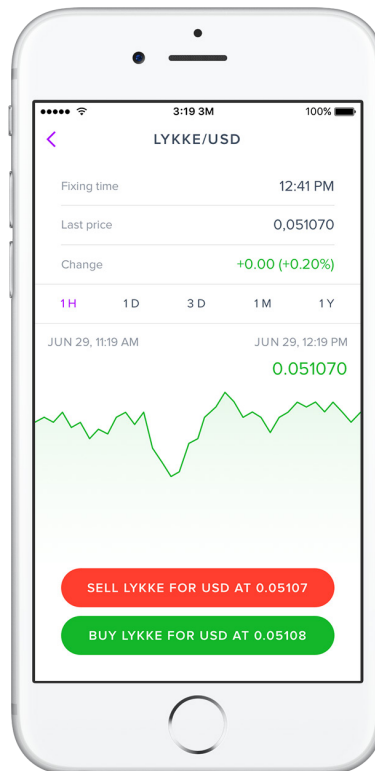

How it was (in numbers):

13.5k
impressions in App
Store

78
accounts opened

287
trades

\$72k
turnover

61
tickets in helpdesk

155
API builds completed

100%
uptime during
working hours

Plans and milestones

The next steps in the coming month will include:

- Android app launch
- Multi-level KYC process implementation
- Regulatory license for non-EU clients approval
- VISA/Mastercard processing

In the mid-term we plan to add:

- MyLykke page with newsfeed and messenger
- Margin trading
- Short positions
- Pending orders
- Web-based trading terminal
- Ethereum blockchain support
- Competition platform to crowd-source projects
- Digital assets issuance portal and API

New products and markets

Lykke introduces sustainable assets on its marketplace. Natural Capital Alliance is an open source community & platform to connect sustainability projects with capital markets. Alan Laubsch, a risk management expert and a supporter of biodiversity and natural capital preservation, leads the initiative. The project addresses the inefficiencies of natural capital investment and improves access to capital markets for sustainability projects.
